GENERAC®

If your generator is registered and is **less than 1 year old from the date of purchase**, Generac will offer a 5 year total period of parts and labor warranty for your generator.

If for any reason your generator fails to perform as designed, Generac will coordinate the repair or replacement of your Generac/Guardian air or liquid cooled power plant at no charge. This is the best value you can purchase and guarantees system functionality for the life of this extended warranty agreement

- Must be purchased before one year (12 months) after initial purchase date to be valid
- Unit must be registered before extended warranty can be issued
- Service period begins from date of original generator purchase - NOT on the purchase date of extended warranty
- Proof of purchase must be available upon request
- Unit must be under a scheduled maintenance contract with a Generac Authorized Service Installer
- Proof of scheduled maintenance must be provided at the time of warranty claim is made
